

USER-FRIENDLY WEB CONFERRING

The demand for effective, easy to use and affordable Web conferencing solutions has never been higher. Enterprises of every size are seeking better, faster ways to communicate, collaborate, and connect to customers, partners and employees

PictureTalk is by far the most intuitive and user-friendly Web Conferencing and collaboration tools available in the industry today. It is offered in both a fully hosted ASP and Enterprise version, meeting the demands of today's agile businesses.

CONNECTING YOU TO THE WORLD

PictureTalk offers a stable, cost effective and scalable solution to connect you to your customers, prospects and workforce – instantly.

Our patented Web conferencing technology allows customers to communicate and collaborate across multiple platforms—and do so faster, easier and more cost effectively than ever before.
